Arab Migrant Communities in the GCC Zahra Babar 2017-07-01 Long a recipient of migrants from its surrounding areas, the Arabian Peninsula today comprises a mosaic of communities of diverse ethnic, cultural, linguistic and religious origins. For decades, while the Gulf Cooperation Council (GCC) states have housed and employed groups of migrants coming and going from Asia, Africa and the West, they have also served as home to the older, more settled communities that have come from neighbouring Arab states. Arab Migrant Communities in the GCC is a unique, original work of scholarship based on in-depth fieldwork shedding light on a topic both highly relevant and woefully understudied. It focuses on the earlier community of Arab immigrants within the GCC, who are among the politically most significant and sensitive of migrant

groups in the region. Through its multi-disciplinary lenses of social history, cultural studies, economics, and political science, the book presents original data and provides analyses of the settlement and continued evolution of migrant Arab communities across the GCC, their work in and assimilation within host societies and labour markets, and their political, economic, social and cultural significance both to the GCC region and to their countries of origin.

The Rights of Refugees under International Law James C. Hathaway 2005-09-15 This book presents the first comprehensive analysis of the human rights of refugees as set by the UN Refugee Convention. In an era where States are increasingly challenging the logic of simply assimilating refugees to their own citizens, questions are now being raised about whether refugees should be allowed to enjoy freedom of movement, to work, to access public welfare programs, or to be reunited with family members. Doubts have been expressed about the propriety of exempting refugees from visa and other immigration rules, and whether there is a duty to admit refugees at all. Hathaway links the standards of the UN Refugee Convention to key norms of international human rights law, and applies his analysis to the world's most difficult protection challenges. This is a critical resource for advocates, judges, and policymakers. It will also be a pioneering scholarly work for graduate students of international and human rights law.

The 1951 Convention Relating to the Status of Refugees and Its

1967 Protocol Andreas Zimmermann 2011-01-27 '.. this work is intended to provide an in-depth analysis of each and every provision of the 1951 Convention and its 1967 Protocol. The Afghan Hound Fardin Azizzada 2016-03-31 Away from this World (The Afghan hound) When government corruption becomes a way of life, it is the minorities that suffer the most. Aftab Hakimi was born into a Hazara family in 1973 in Kabul, Afghanistan. At the age of fifteen, he emigrated to India. After living in India for a year and five months, he was smuggled to London, England. He received his British travel document after living in London for ten months. He decided to live in the United States with his cousin; however, the US embassy in London refused to give him a visiting visa on his British travel document. Aftab obtained a Mexican visa, and from Mexico climbed over the border and landed on US soil. After two and half years, the US immigration did not accept his refugee application and put him on deportation. Aftab decided to start a new life in Canada, so he crossed into Quebec from New York and declared himself an Afghan refugee in Canada. Throughout his journey Aftab used fake names and dates of birth in order to protect his actual identity. Aftab faced many social challenges, such as cultural shock, jealousy, a materialistic lifestyle, and women.

Forcibly Displaced World Bank 2017-08-01 The Syrian refugee crisis has galvanized attention to one of the world's foremost challenges: forced displacement. The total number of refugees and internally displaced persons, now at over 65 million, continues to grow as violent conflict spikes. This report, *Forcibly Displaced: Toward a Development Approach Supporting Refugees, the Internally Displaced, and Their Hosts*, produced in close partnership with the United Nations High Commissioner for Refugees (UNHCR), attempts to sort fact from fiction to better understand the scope of the challenge and encourage new thinking from a socioeconomic perspective. The report depicts the reality

of forced displacement as a developing world crisis with implications for sustainable growth: 95 percent of the displaced live in developing countries and over half are in displacement for more than four years. To help the displaced, the report suggests ways to rebuild their lives with dignity through development support, focusing on their vulnerabilities such as loss of assets and lack of legal rights and opportunities. It also examines how to help host communities that need to manage the sudden arrival of large numbers of displaced people and that are under pressure to expand services, create jobs, and address long-standing development issues. Critical to this response is collective action. As work on a new Global Compact on Responsibility Sharing for Refugees progresses, the report underscores the importance of humanitarian and development communities working together in complementary ways to support countries throughout the crisis†•from strengthening resilience and preparedness at the onset to creating lasting solutions.

Nationality and Statelessness in the International Law of Refugee Status Eric Fripp 2016-09-22 International refugee law anticipates state conduct in relation to nationality, statelessness, and protection. Refugee status under the Convention relating to the Status of Refugees 1951 and regional and domestic instruments referring to it can be fully understood only against the background of international laws regarding nationality, statelessness, and the consequences of national status or the lack of it. In this significant addition to the literature a leading practitioner in these fields examines, in the light of international law, key issues regarding refugee status including identification of 'the country of his nationality', concepts of 'effective nationality', and the inclusion within 'persecution' of a range of acts or omissions focused on nationality.

Escape from Manus Jaivet Ealom 2021-07-02 The awe-inspiring story of the only person to successfully escape from Australia's notorious offshore detention centre on Manus Island. In 2013 Jaivet Ealom fled Myanmar's brutal regime and boarded a boat of asylum seekers bound for Australia. Instead of receiving refuge, he was transported to Australia's infamous Manus Regional Processing Centre. Blistering hot days on the island turned into weeks, then years until, finally, facing either jail in Papua New Guinea or being returned to almost certain death in Myanmar, he took matters into his own hands. Drawing inspiration from the hit show Prison Break, Jaivet meticulously planned his escape. He made it out alive but was stateless, with no ID or passport. While the nightmare of Manus was behind him, his true escape to freedom had only just begun. How Jaivet made it to sanctuary in Canada in a six-month-long odyssey by foot, boat, car and plane is miraculous. His story will astonish, anger and inspire you. It will make you reassess what it means to give refuge and redefine what can be achieved by one man determined to beat the odds.

Foreigners, Refugees or Minorities? Didier Bigo 2016-04-15 When immigration policy and the treatment of Roma collide in international relations there are surprising consequences which are revelatory of the underlying tensions between internal and external policies in the European Union. This book examines the relationship of citizenship,

ethnicity and international relations and how these three aspects of the State, its people and its neighbours relate to one another. It studies the wide issue of international relations, citizenship and minority discrimination through the lens of the case study of European Roma who seek refugee status in Canada on account of their persecution in Europe. The volume assesses the relationships among citizenship, state protection and persecution and minority status, and how they can intersect with and destabilize foreign affairs. The central background to the book is the European treatment of Roma, their linkages with visa and asylum policies and their human rights repercussions. The various contributions reveal how modern liberal democracies can find themselves in contradictory positions concerning their citizens - when these are looking for protection abroad - and foreigners - in search of international protection - as a consequence of visa and pre-border surveillance policies and practices.

Refugee Law in India Shuvro Prosun Sarker 2017-08-08 This book considers refugee protection mandates and addresses how legal scholarship can articulate a comprehensive and humane response to the contemporary refugee problem. Analyzing philosophical discourses and India's policies and practices on refugee protection, including judgments of Indian Courts in refugee related cases, it examines how organizational efforts can make these policies and practices equal for every refugee in India. It also surveys prevailing discriminative protection standards and entitlements developed through Conventions, Declaration and Directives, and compares and contrasts national refugee legislations in South Africa, Brazil and Canada. A key read for scholars and practitioners interested in the legal and policy implications of refugee protection, this text

identifies various practices of nation-States from across the North/South divide and provides key insights into the evolving nature of protection agendas.

Immigration Canada Augie Fleras 2014-12-05 Beyond the romanticized image of newcomers arriving as a "huddled mass" at Halifax's Pier 21, understanding the reality and complexity of immigration today requires an expert guide. In the hands of Augie Fleras, this intricate and ever-changing subject gets the attention it deserves with analysis of all aspects, including admission policies, the refugee processing system, the temporary foreign worker program, and the emergence of transnational identities. Given the unprecedented number of federal policy reforms of the past decade, such a roadmap is essential. By thoroughly capturing the politics, patterns, and paradoxes of contemporary migration, Immigration Canada rethinks the thorny issues and reframes the key debates.

The Rights of Refugees under International Law James C. Hathaway 2021-03-31 Do states have a duty to assimilate refugees to their own citizens? Are refugees entitled to freedom of movement, to be allowed to work, to have access to public welfare programs, or to be reunited with family members? Indeed, is there even a duty to admit refugees at all? This fundamentally rewritten second edition of the award-winning treatise presents the only comprehensive analysis of the human rights of refugees set by the UN Refugee Convention and international human

rights law. It follows the refugee's journey from flight to solution, examining every rights issue both historically and by reference to the decisions of senior courts from around the world.
