Shared Decision Making in Health Care Glyn Elwyn

2016-07-22 Over the past decade health care systems around the world have placed

Downloaded from uwar-game.com on August 9, 2022 by guest

increasing importance on the relationship between patient choice and clinical decision-making. In the years since the publication of the second edition of *Shared Decision Making in Health Care*, there have been significant new developments in the field, most notably in the US where 'Obamacare' puts shared decision making (SDM) at the centre of the 2009 Affordable Care Act. This new edition explores shared decision making by examining, from practical and theoretical perspectives, what should comprise an effective decision-making process. It also looks at the benefits and potential difficulties that arise when patients and clinicians share health care decisions. Written by leading experts from around the world and utilizing high quality evidence, the book provides an up-to-date reference with real-world context to the topics discussed, and in-depth coverage of the practicalities of implementing and teaching SDM. The breadth of information in

Shared Decision Making in Health Care makes it an essential resource for policy-makers and health care workers. As health care systems adapt to increasingly collaborative patient-clinician care frameworks, this will also prove a useful guide to SDM for clinicians of all disciplines.

A History of Affirmative Action, 1619-2000 Philip F. Rubio 2001 Publisher Fact Sheet Puts current debate in historical context.

The Palgrave Handbook of Auto/Biography Julie M. Parsons 2020-04-28 In a neo-liberal era concerned with discourses of responsible individualism and the 'selfie', there is an increased interest in personal lives and experiences. In contemporary life, the personal is understood to be political and these ideas cut across both the social sciences and humanities. This handbook is specifically concerned with auto/biography, which sits within the field of narrative, complementing biographical and life history research. Some

of the contributors emphasise the place of narrative in the construction of auto/biography, whilst others disrupt the perceived boundaries between the individual and the social, the self and the other. The collection has nine sections: creativity and collaboration; families and relationships; epistolary lives; geography; madness; prison lives; professional lives; 'race'; and social justice and disability. They illustrate the inter- and multi-disciplinary nature of auto/biography as a field. Each section features an introduction from a section editor, many of whom are established researchers and/or members of the British Sociological Association (BSA) Auto/Biography study group. The handbook provides the reader with cutting-edge research from authors at different stages in their careers, and will appeal to those with an interest in auto/biography, auto-ethnography, epistolary traditions, lived experiences, narrative analysis, the arts,

education, politics, philosophy, history, personal life, reflexivity, research in practice and the sociology of the everyday. Chapter 1: A Case for Auto/Biography; Julie Parsons and Anne Chappell. Section One: Creativity and Collaboration; edited by Gayle Letherby. Chapter 2: The Times are a Changing: Culture(s) of Medicine; Theresa Compton. Chapter 3: Seventeen Minutes and Thirty-One Seconds: An Auto/Biographical Account of Collaboratively Witnessing and Representing an Untold Life Story; Kitrina Douglas and David Carless. Chapter 4: Reflections on a Collaborative, Creative 'Working' Relationship; Deborah Davidson and Gayle Letherby. Section Two: Families and Relationships: Auto/Biography and Family, A Natural Affinity?; edited by David Morgan. Chapter 5: Life Story and Narrative Approaches in the Study of Family Lives; Julia Brannen. Chapter 6: The Research Methods for Discovering Housing

Inequalities in Socio-Biographical Studies; Elizaveta Polukhina. Chapter 7: Auto/Biographical Research and The Family; Aidan Seery and Karin Bacon. Section Three: Epistolary Lives: Fragments, Sensibility, Assemblages in Auto/Biographical Research; edited by Maria Tamboukou. Chapter 8: Letter-Writing and the Actual Course of Things: Doing the Business, Helping the World Go Round; Liz Stanley. Chapter 9: The Unforeseeable Narrative: Epistolary Lives in Nineteenth Century Iceland; Erla Hulda Halldórsdóttir. Chapter 10: Auto/Pathographies In Situ: 'Dying of Melancholy' in Nineteenth Century Greece; Dimitra Vassiliadou. Section Four: Geography Matters: Spatiality and Auto/Biography; edited by John Barker and Emma Wainwright. Chapter 11: "Trying to Keep Up": Intersections of Identity, Space, Time and Rhythm in Women Student Carer Auto/Biographical Accounts; Fin Cullen, John Barker and

Pam Alldred. Chapter 12: Spatiality and Auto/Biographical Narratives of Encounter in Social Housing; Emma Wainwright, Elodie Marandet and Ellen McHugh. Chapter 13: "I Thought... I Saw... I Heard...": The Ethical and Moral Tensions of Auto/Biographically Opportunistic Research in Public Spaces; Tracy Ann Hayes. Section Five: Madness, Dys-order and Autist/Biography: Auto/Biographical Challenges to Psychiatric Dominance; edited by Kay Inckle. Chapter 14: Autist/Biography; Alyssa Hillary. Chapter 15: Reaching Beyond Auto? A Polyvocal Representation of Recovery From "Eating Dys-order"; Bríd O'Farrell. Chapter 16: [R]evolving Towards Mad: Spinning Away from the Psy/Spy-Complex Through Auto/Biography; Phil Smith. Section Six: Prison Lives; edited by Dennis Smith. Chapter 17: Nelson Mandela: Courage and Conviction - The Making of a Leader; Dennis Smith. Chapter 18: The "Other"

Prison of Antonio Gramsci and Giulia Schucht; Jeni Nicholson. Chapter 19: Bobby Sands: Prison and the Formation of a Leader; Denis O'Hearn. - Section Seven: Professional Lives; edited by Jenny Byrne. Chapter 20: Academic Lives in a Period of Transition in Higher Education: Bildung in Educational Auto/Biography; Irene Selway, Jenny Byrne and Anne Chappell. Chapter 21: Narratives of Early Career Teachers in a Changing Professional Landscape; Glenn Stone. Chapter 22: What Does it Mean to be a Young Professional Graduate Working in the Private Sector?; Jenny Byrne. Section Eight: 'Race' and Cultural Difference; edited by Geraldine Brown. Chapter 23: Now You See Me, Now You Don't! Making Sense of the Black and Minority Ethnic (BME) Experience of UK Higher Education: One Person's Story; Gurnam Singh. Chapter 24: Raging Against the Dying of the Light; Paul Grant. Chapter 25: Black Young Men: Problematisation, Humanisation and Effective

Engagement; Carver Anderson. Section Nine: Social Justice and Disability: Voices From the Inside; by Chrissie Rogers. Chapter 26: Missing Data and Socio-Political Death: The Sociological Imagination Beyond the Crime; Chrissie Roger. Chapter 27: Co-Constructed Auto/Biographies in Dwarfism Mothering Research: Imagining Opportunities for Social Justice; Kelly-Mae Saville. Chapter 28: An Auto/Biographical Account of Managing Autism and a Hybrid Identity: 'Covering' for Eight Days Straight; Amy Simmons. *Survey of States Relative to Use of Highway Rights-of-way for Business Purposes* Charles Viktorin 1988 *The Early State* Henri J. M. Claessen 1978-01-01 *The Other Side of Western Civilization: The sixteenth century to the present* Stanley Chodorow 2000 The book consists of secondary readings with a strong social history focus. It provides students with exposure to the latest issues in European social history and to

the nature of history research. At the same time, the articles themselves are easily linked to mainstream developments in their time periods.

Publish Your Family History

Dina C Carson 2015-01-23 If you have stories to share with your family, whether you have been researching a short time or a long time, this book will: * take you through the four stages of publishing projects * show you how publishing works * help you pick a project to publish * lead you through a research review to see what you have and what you still need to tell the stories in a compelling way * give you the skills to become a good storyteller * lead you through the process of editing * instruct you how to prepare your manuscript to look like it was professionally published and * help you spread the word that you have a book available Everything you need to write and publish your family history. Keywords: family history, genealogy, write a family history, write a genealogy, publish your family history,

how to self-publish, book publishing, storytelling, book marketing, designing a book **U.S. History** P. Scott Corbett 2017-12-19 Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

colleagues and the courts.

Individual Participant Data

Meta-Analysis Richard D.

Riley 2021-06-08 Individual

Participant Data Meta-Analysis:

A Handbook for Healthcare

Research provides a

comprehensive introduction to

the fundamental principles and

methods that healthcare

researchers need when

considering, conducting or

using individual participant

data (IPD) meta-analysis

projects. Written and edited by

researchers with substantial

experience in the field, the

book details key concepts and

practical guidance for each

stage of an IPD meta-analysis

project, alongside illustrated

examples and summary

learning points. Split into five

parts, the book chapters take

the reader through the journey

from initiating and planning

IPD projects to obtaining,

checking, and meta-analysing

IPD, and appraising and

reporting findings. The book

initially focuses on the

synthesis of IPD from

randomised trials to evaluate

treatment effects, including the

evaluation of participant-level effect modifiers (treatment-covariate interactions). Detailed extension is then made to specialist topics such as diagnostic test accuracy, prognostic factors, risk prediction models, and advanced statistical topics such as multivariate and network meta-analysis, power calculations, and missing data. Intended for a broad audience, the book will enable the reader to: Understand the advantages of the IPD approach and decide when it is needed over a conventional systematic review Recognise the scope, resources and challenges of IPD meta-analysis projects Appreciate the importance of a multi-disciplinary project team and close collaboration with the original study investigators Understand how to obtain, check, manage and harmonise IPD from multiple studies Examine risk of bias (quality) of IPD and minimise potential biases throughout the project Understand fundamental statistical methods for IPD meta-analysis, including two-

stage and one-stage approaches (and their differences), and statistical software to implement them Clearly report and disseminate IPD meta-analyses to inform policy, practice and future research Critically appraise existing IPD meta-analysis projects Address specialist topics such as effect modification, multiple correlated outcomes, multiple treatment comparisons, non-linear relationships, test accuracy at multiple thresholds, multiple imputation, and developing and validating clinical prediction models Detailed examples and case studies are provided throughout.

History of Neurology Stanley Finger 2009-12-08 Handbook of Clinical Neurology: Volume 95 is the first of over 90 volumes of the handbook to be entirely devoted to the history of neurology. The book is a collection of historical materials from different neurology professionals. The book is divided into 6 sections and composed of 55 chapters organized around different aspects of the history of neurology. The first section presents the beginnings of neurology: ancient trepanation, its birth in Mesopotamia, ancient Egypt; the emergence of neurology in the biblical text and the Talmud; neurology in the Greco-Roman world and the period following Galen; neurological conditions in the European Middle Ages; and the development of neurology in the 17th and 18th centuries. The second section narrates the birth of localization theory; the beginning of neurology and histological applications, neuroanatomy, neurophysiology, surgical neurology and other anatomo-

clinical methods. The third section covers further development of the discipline, including methods of neurological illustration and hospitals in neurology and neurosurgery. This section also narrates the history of child neurology, neurodisability and neuroendocrinology. It also features the application of molecular biology on clinical neurology. The fourth section describes the dysfunctions of the nervous system and their history. The fifth and last section covers the regional landmarks of neurology and the different treatments and recovery. The text is informative and useful for neuroscience or neurology professional, researchers, clinical practitioners, mental health experts, psychiatrists, and academic students and scholars in neurology. * A comprehensive accounting of historical developments and modern day advancements in the field of neurology * State-of-the-art information on topics including brain damage and dysfunctions of the nervous

system * New treatments and recovery methods from redundancy to vicariation and neural transplantation, amongst others

Religious Right A.F.

Alexander 2012-04-02 There is a deceptive movement to take over the government, courts, education system, media outlets, and American culture with stealth - and it's true. How is this possible? Find out in the pages of this expose, written by an insider who left the Religious Right fold, and now shares why they believe they are mandated to have dominion over every aspect of life in the United States. It reveals how their vision for America is not a democracy at all. - Understand the Religious Right network's blueprint for America. - Meet the Christian Reconstructionists and Dominionists. - Understand the Seven Mountains Mandate, which provides the strategy for a successful takeover. - See why Quiverfull is the template for a proper, traditional family. - Finally, understand the attacks on public schools and

teachers. - Find out who the leaders of the movement really are and their successful tactics.

- This book explains the rewriting of our nation's history. - Complete with interviews, research, and bibliography included. - Presentation is organized and systematic, while in plain English. - Shares how to get involved and make a difference in your community to protect your rights and preserve democracy.

The History of Ancient Windsor: The Genealogy

Henry Reed Stiles 1976
Includes East Windsor, South Windsor, Bloomfield, Windsor Locks, and Ellington. By Henry R. Stiles. 1,012 pp. 100+ maps, photos, sketches, signatures of early settlers, indexes. Three centuries of history are brought to vibrant life in this volume, the work of one of the best known and most respected Connecticut historians. The histories of all the usual

institutions (schools, churches, local government, military units, etc.) are given in depth, together with lists and biographies of the early physicians, ministers, merchants, lawyers and town officials. Verbatim transcripts of some of the earliest church and tombstone records are included as well, making this volume much, much more than simply the historical volume of Stiles' monumental two-volume work.

Functional Neurologic Disorders 2016-10-06

Functional Neurologic Disorders, the latest volume in the Handbook of Clinical Neurology series, summarizes state-of-the-art research findings and clinical practice on this class of disorders at the interface between neurology

and psychiatry. This 51-chapter volume offers an historical introduction, chapters on epidemiology and pathophysiology, a large section on the clinical features of different type of functional neurologic symptoms and disorders (including functional movement disorders, non-epileptic seizures, dizziness, vision, hearing, speech and cognitive symptoms), and then concluding with approaches to therapy. This group of internationally acclaimed experts in neurology, psychiatry, and neuroscience represent a broad spectrum of areas of expertise, chosen for their ability to write clearly and concisely with an eye toward a clinical audience. This HCN volume sets a new landmark standard for a comprehensive, multi-authored work dealing with functional neurologic disorders (also described as psychogenic, dissociative or conversion disorders). Offers a comprehensive interdisciplinary approach for the care of patients with functional disorders seen in

neurologic practice, leading to more efficient prevention, management, and treatment Provides a synthesis of research efforts incorporating clinical, brain imaging and neurophysiological studies Fills an existing gap between traditional neurology and traditional psychiatry Contents include coverage of history, epidemiology, clinical presentations, and therapy Edited work with chapters authored by leaders in the field, the broadest, most expert coverage available

Starting with Hobbes George

MacDonald Ross 2009-06-30

Thomas Hobbes was one of the most important and influential philosophers of the seventeenth century. Covering all the key concepts of his work, *Starting with Hobbes* provides an accessible introduction to the ideas of this hugely significant thinker.

Thematically structured, this book leads the reader through the full range of Hobbes's ideas and, uniquely, not just his political philosophy. In his day, he was internationally as famous for his theories about knowledge, language, the material nature of reality, mathematics, psychology, and religion, as he was for his politics; and these aspects of his work are fully covered. The book places Hobbes firmly in his historical context, with discussions of his relations to contemporary thinkers such as Galileo and Descartes and his influence on later thinkers such as Spinoza and Leibniz. This is the ideal introduction for

anyone coming to the work of one of the greatest of English philosophers for the first time.

A Companion to the Flavian Age of Imperial Rome

Andrew Zissos 2016-03-07 A Companion to the Flavian Age of Imperial Rome provides a systematic and comprehensive examination of the political, economic, social, and cultural nuances of the Flavian Age (69-96 CE). Includes contributions from over two dozen Classical Studies scholars organized into six thematic sections Illustrates how economic, social, and cultural forces interacted to create a variety of social worlds within a composite Roman empire Concludes with a series of appendices that provide detailed chronological and demographic information and an extensive glossary of terms Examines the Flavian Age more broadly and inclusively than ever before incorporating coverage of often neglected groups, such as women and non-Romans within the Empire
