**The Many-Headed Hydra** Peter Linebaugh 2013-09-03 Winner of the International Labor History Award Long before the American Revolution and the Declaration of the Rights of Man, a motley crew of sailors, slaves, pirates, laborers, market women, and indentured servants had ideas about freedom and equality that would forever change history. The Many Headed-Hydra recounts their stories in a sweeping history of the role of the dispossessed in the making of the modern world. When an unprecedented expansion of trade and colonization in the early seventeenth century launched the first global economy, a vast, diverse, and landless workforce was born. These workers crossed national, ethnic, and racial boundaries, as they circulated around the Atlantic world on trade ships and slave ships, from England to Virginia, from Africa to Barbados, and from the Americas back to Europe. Marshaling an impressive range of original research from archives in the Americas and Europe, the authors show how ordinary working people led dozens of rebellions on both sides of the North Atlantic. The rulers of the day called the multiethnic rebels a 'hydra' and brutally suppressed their risings, yet some of their ideas fueled the age of revolution. Others, hidden from history and recovered here, have much to teach us about our common humanity.

*The Sahara* Jeremy Keenan 2013-10-18 This collection examines the Sahara holistically from the earliest (prehistoric) times through the ‘historical’ period to the present and with political direction into the future. The contributions cover palaeoclimatology, history, archaeology (cultural heritage), social anthropology, sociology, politics and international affairs. Structured chronologically, the volume can almost be read as a narrative of the Sahara from the earliest times to the present, i.e. from the past climates of the Sahara in prehistoric times to the current ‘war on terror’ and its implications for the peoples of the Sahara. Importantly, the collection shows how the region must be approached ‘holistically’, highlighting the importance of each of these subject areas (palaeo-climates, history, politics, etc.) in relation to each other. Indeed, the first contribution is a remarkable (and unique) paper, bringing together the work of some 8-9 internationally recognised scientists to tell the story and show the relevance to the present day of the Sahara’s past climates etc. Nearly all the contributions stand in their own right at the cutting edge of research in their respective fields (e.g. archaeology, history, politics, etc.). This book was previously published as a special issue of the Journal of North African Studies.

**Genius in Bondage** Vincent Carretta 2021-05-11 Until fairly recently, critical studies and anthologies of African American literature generally began with the 1830s and 1840s. Yet there was an active and lively transatlantic black literary tradition as early as the 1760s. Genius in Bondage situates this literature in its own historical terms, rather than treating it as a sort of prologue to later African American writings. The contributors address the shifting meanings of race and gender during this period, explore how black identity was cultivated within a capitalist economy, discuss the impact of Christian religion and the Enlightenment on definitions of freedom and liberty, and identify ways in which black literature both engaged with and rebelled against Anglo-American culture.

His Thoughts and Sentiments on the Evil of Slavery is the most direct criticism of slavery by a writer of African descent. Cugoano refutes pro-slavery arguments of the day, including slavery's supposed divine sanction; the belief that Africans gladly sold their own families into slavery; that Africans were especially suited to its rigors; and that West Indian slaves led better lives than European serfs. Exploiting his dual identity as both an African and a British citizen, Cugoano daringly asserted that all those under slavery's yoke had a moral obligation to rebel, while at the same time he appealed to white England's better self. Orlanda Jacqueline Harpman 2012-05-31 "A magical novel on the theme of androgyny. Funny, subtle, poignant..." - Nadine Sautel, Magazine littéraire

"Jacqueline Harpman drags us into one of those sexual phantasmagorias that are her own secret. She displays incredible confidence in juggling identities and meshing together yearnings and phobias, fantasies and frustrations" - T G, L'Express How would it be to jump into the skin of another? To be both a man and a woman at once? And what would happen if you found yourself attracted to yourself? Beneath a mousy exterior, 35-year-old college lecturer Aline seethes with frustration. Sick of being bullied by her mother and treated like a piece of furniture by Albert, her live-in lover, one day Aline leaps from her

own skin into the far more attractive body of Lucien, whom she spots in a café at the Gare du Nord. From here this brilliantly imaginative story runs on parallel lines. While Aline sensibly catches the train back to her orderly life, Aline-Lucien - or Orlanda, as her bold new composite self is called in homage to Virginia Woolf - follows, dragging chaos in his wake. Jacqueline Harpman, herself once a psychoanalyst, revels in the confusion, as ego falls for alter ego and mothers, sisters and lovers begin to ask awkward questions in this unusual perceptive comedy of double selves and bisexuality. "Undoubtedly this is a novel to breathe life into characters through the unfettered use of the imagination. It offers a pretext for a great deal of humour and fantasy that stirs up the old myths" - André Brincourt, Figaro Winner of the Prix Médicis.
