Our digital library saves in complex countries, allowing you to get the most less latency time to download any of our books in the same way as this one. Merely said, the Labor Relations Sloane 13th Edition is universally compatible gone any devices to read.

Between a Past and Present Consciousness Christopher A. Williams 2019-07-08 In an age of rampant xenophobia and the nativist imperative to undo globalization for a return to a bygone, “purer” age, can patently modern identities indefinitely sustain their messages of inclusion and equality? This volume serves to answer this and other pressing existential questions by tracing the development of the Caymanian people from the colonial era into our modern globalized, multicultural age. The emergence of Caymanian nationalism is extensively analyzed and confirmed as a phenomenon that was preceded by fragmented Caymanian identities informed by issues of race and class. Despite this, the native Caymanian people were able to successfully jettison their race-thinking, and in so doing, began to see themselves as members of a singular nationality. This notion of national and cultural solidarity, as this book details, has become a vexing issue, and is now being duly tested given the astonishing numbers of immigrants in Cayman, many of whom are keen to become Caymanians themselves.

The Reduction of Working Time Rolande Cuvillier 1984 The author outlines the arguments put forward with regard to the potential effects of a reduction in working time in industrialized market economy countries. She examines the implications of such a reduction in working time for the individual, the establishment and the community as a whole.

21st Century Economics: A Reference Handbook Rhona C. Free 2010-05-14 Interest in economics is at an all-time high. Among the challenges facing the nation is an economy with rapidly rising unemployment, failures of major businesses and industries, and continued dependence on oil with its wildly fluctuating price. Economists have dealt with such questions for generations, but they have taken on new meaning and significance. Tackling these questions and encompassing analysis of traditional economic theory and topics as well as those that economists have only more recently addressed, *21st Century Economics: A Reference Handbook* is a must-have reference resource. Key Features Provides highly readable summaries of theory and models in key areas of micro and macroeconomics, helpful for students trying to get a “big picture” sense of the field Includes introductions to relevant theory as well as empirical evidence, useful for readers interested in learning about economic analysis of an issue as well for students embarking on research projects Features chapters focused on cutting-edge topics with appeal for economists seeking to learn about extensions of analysis into new areas as well as new approaches Presents models in graphical format and summarizes empirical evidence in ways that do not require much background in statistics or econometrics, so as to maximize accessibility to students

Hoffa Arthur A. Sloane 1991 Recounts the private life and public career of the labor leader who is remembered for his populist touch with the rank-in-file, his brushes with the law, and his mysterious disappearance

Foreign Affairs Federalism Michael J. Glennon 2016-04-15 Challenging the myth that the federal government exercises exclusive control over U.S. foreign-policymaking, Michael J. Glennon and Robert D. Sloane propose that we recognize the prominent role that states and cities now play in that realm. Foreign Affairs Federalism provides the first comprehensive study of the constitutional law and practice of federalism in the conduct of U.S. foreign relations. It could hardly be timelier. States and cities recently have limited greenhouse gas emissions, declared nuclear free zones and sanctuaries for undocumented immigrants, established thousands of sister-city relationships, set up informal diplomatic offices abroad, and sanctioned oppressive foreign governments. Exploring the implications of these and other initiatives, this book argues that the national interest cannot be advanced internationally by Washington alone. Glennon and Sloane examine in detail the considerable foreign affairs powers retained by the states under the Constitution and question the need for Congress or the president to step in to provide “one voice” in foreign affairs. They present concrete, realistic ways that the courts can update antiquated federalism precepts and untangle interwoven strands of international law, federal law, and state law. The result is a lucid, incisive, and up-to-date analysis of the rules that empower-and limit-states and cities abroad.

Effective Police Supervision Harry W. More 2014-01-22 Good police officers are often promoted into supervisory positions with little or no training for what makes a good manager. Effective Police Supervision is a core text used in college-level classes on supervisory practices in

criminal justice. This popular book combines behavioral theory with case studies that allow the reader to identify and resolve personal and organizational problems. It provides readers with an understanding of group behaviors and organizational dynamics, with a focus on effectiveness as well as proficiency, and on how a supervisor can help to create an effective organization. This book is also a vital tool in the preparation of police officers for promotional exams. Each chapter includes important key terms and opens with a case study to illustrate important concepts New material has been added throughout the textbook on police accountability, police involvement with news media, dealing with social media, and avoiding scandals Used nationwide for police promotional exams A study guide including learning objectives, key terms, chapter summaries, and review questions is available for purchase (ISBN: 9780323280044)

Labor Relations John W. Budd 2008 John Budd here presents labour relations as a system for striking a balance between the employment relationship goals of efficiency, equity and voice, and between the rights of labour and management.

Sustainable Work Ability and Aging Clas-Håkan Nygård 2020-02-13 In many industrialized countries, there is a sharp increase of the aging population due to a decrease in fertility rate and an increase in life expectancy. Due to which, the age dependency ratio rises and may cause increased economic burden among working age population. One strategy to combat this problem is to prolong peoples working career. A sufficient work ability is a requirement for a sustainable and prolonged employment. Work ability is primarily a question of balance between work and personal resources. Personal resources change with age, whereas work demands may not change parallel to that, or only change due to globalization or new technology. Work ability, on average, decreases with age, although several different work ability pathways exist during the life course. Work-related factors, as well as general lifestyle, may explain the declines and improvements in work ability during aging. A sustainable work ability throughout the life course is a main incentive for a prolonged working career and a healthy aging. Work ability and work-related factors, are therefore important occupational and public health issues when the age of the population increases. This Special Issue, “Sustainable Work Ability and Aging”, includes in all 16 original articles and one opinion paper, organized in three sections. The research topics cover wide aspects of work ability, from determinants, older employee’s coping with their work, methodological issues as well as results of interventions on promoting work ability.

Effective Police Supervision : Sixth Edition More, Harry W.; Miller, Larry S. 2010-12-29 When a police organization is successful, it is because management is exceptional. Managerial experts acknowledge that the fulcrum of managerial effectiveness is at the level of the first-line supervisor. The best law enforce- ment agencies view the supervisor as an integral part of the managerial process.

Industrial and Organizational Psychology Paul E. Spector 2016-11-10

Anti-Communist Solidarity Larissa Rosa Corrêa 2021-12-20 Since the 1960s, many influential Latin Americans, such as the leaders of student movements and unions, and political authorities, participated in exchange programs with the United States to learn about the American way of life. In Brazil, during the international context of the Cold War, when Brazil was governed by a military dictatorship ruled by generals who alternated in power, hundreds of union members were sent to the United States to take union education courses. Did they come back “Americanized” and able to introduce American trade unionism in Brazil? That is the question this book seeks to answer. It is a subject that is as yet little explored in the history of Latin American labor and international relations: the influence of foreign union organizations on national union politics and movements. Despite the US’s investment in advertising, courses, films and trips offered to Brazilian union members, most of them were not convinced by the American ideas on how to organize an “authentic” union movement – or, at least, not committed to applying what they learned in the States.

Management Stephen P. Robbins 2000 Appropriate for introductory management courses in Canadian colleges and universities. Written in an accessible, conversational style, Management takes a global approach to the subject. Profiles Canadian managers, contains Canadian examples and cases throughout. New topics have been added to this edition, including information technology, the “greening” of management, project management, broadbanding compensation, visionary leadership, trust, ISO 9000, learning organizations, core competencies, autonomous internal units, skill-based pay plans, team leadership, and customer-driven operations. This edition continues to offer outstanding pedagogy, with the addition of a “Testing...Testing” feature that tests student comprehension throughout the text rather than simply at the end of each chapter. The “Thinking Critically About Ethics” feature highlights ethical issues throughout each chapter. In addition, the overall book length has been reduced by condensing and streamlining the text material.

Law Books Published 1981

Labor Relations Larry Suffield 2015-03-03 Labour Relations, Fourth Edition, is intended to provide a practical text for labour relations, industrial relations, and collective bargaining courses. The book is based on the premise that employers, unions, and governments are all key players in labour relations and are affected by a challenging environment.

Books in Print 1995

Labor Relations for the Fire Service Paul J. Antonellis 2012 In his highly regarded new book, Paul Antonellis — fire service veteran, training/education consultant, instructor, author — explores the aspects of labour relations that are intertwined with human resource management in today’s fire service organisations.

Intended as a text for college-level fire service programs, *Labor Relations for the Fire Service* meets USFA’s FESHE requirement for the *Personnel Management for the Fire and Emergency Services* course.

Effective Police Supervision Larry S. Miller 2017-03-07 Outstanding first-line supervisors are essential to the success of any law enforcement agency, yet many officers lack the supervision training necessary to excel. Effective Police Supervision immerses readers in the group behaviors and organizational dynamics supervisors must master in order to lead their teams and to help create an effective police department. Combining behavioral theory and updated case studies, this core text, now in its eighth edition, is a vital tool for all college students pursuing criminal justice courses on supervisory practices, as well as police officers preparing for promotional exams.
