Back Pain Relief in 90 Seconds! Gadi Kaufman 2015-04-04 The pain-free approach to resetting the nervous system and releasing muscle spasms From Neuromuscular Therapist Gadi Kaufman comes the long awaited book about how to relieve back pain using the pain-free approach called Strain Counterstrain Technique. In *Back Pain Relief in 90 Seconds*, you will learn important information about lower back pain that you have not been told by the previous practitioners. For example, did you know that the majority of lower back pain does not actually originate in the lower back muscles themselves? In other words, when you feel lower back pain, the true source of that pain can often be traced to muscles and joints in the front of the body. Yes, that's right: those tired and overused muscles in the front of the body can radiate severe pain to the lower back. This lower back pain quickly becomes chronic due to a chain reaction that occurs

which limits mobility, twists and torques the spine, rotates the pelvis, and compresses hip sockets on both sides of the body. At the center of this chain reaction is a painful muscle spasm, which means the muscle has essentially shut down and stopped contracting and releasing. If this muscle spasm is left untreated, your lower back pain can persist for years. But now you can do something about it. In *Back Pain Relief in 90 Seconds*, you will learn how to use the passive and pain-free Strain Counterstrain Technique to release persistent muscle spasms and relieve your lower back pain -- in the comfort of your own home, and with no more equipment than your sofa or a chair. This technique is extremely gentle and doesn't require spinal manipulations or uncomfortable maneuvers or deep tissue massage. You can relieve your pain without harsh medications, and without any additional pain during the process. *Back Pain Relief in 90 Seconds* is not another book of exercises and stretching. This technique will manipulate the autonomic nervous system and switch off the muscle spasm (which is being controlled by the nervous system). Relieving this pain is all about the nervous system. If you don't allow the nervous system to reset, then the spasm will not release. Muscles are dependent on the nervous system. As the author Gadi Kaufman famously says: "The nervous system is the boss! The muscles are the employees!" The step-by-step instructions and illustrations in *Back Pain Relief in 90 Seconds* focus on the specific muscles that are known contributors to lower back pain including: Psoas, Iliacus, Rectus Abdominus, Abdominal Obliques, Quadratus Lumborum, Piriformis, and more. With these 10 positional releases, you can begin to live again without lower back pain, which is something everyone deserves.

Einstein Was Wrong! Martin O. Cook 2015-07-11 [Note: The most complete version of the big picture that eluded Einstein in his attempts to unveil a unified field theory can be found in the book, *The Gravity Cycle*, by the same author as this book. This book, *Einstein Was Wrong!*, was one of many approaches to the ideas that will shake the very foundations of physical science upon which we presently stand.] Modern Physics is built on an erroneous foundation. If we are to take physics to a new level where gravity can be explained from an atomic/quantum perspective, then someone must boldly say, "Einstein was wrong, but so was Newton." Because they both started with the same wrong premise, their theories of gravity were destined to fall short in any attempt to connect them to atomic/quantum processes. And the same false premise that stifled Einstein in his ability to connect "the movement of planets and stars with the tiniest subatomic particles" prevents modern physicists from explaining the fourth and final force from an atomic/quantum perspective. Alas, "...when one starts with a wrong premise, no amount of patching can right the problem." But all is not lost. By correcting Newton's mistake (the wrong premise), a new foundation for understanding the role of the atom in the momentum, relativity, and gravity of masses emerges in the form of two

new theories: The Atomic Model of Motion (AMM) and The Galaxy Gravity Cycle (GGC). These two theories combine to paint the big picture of how atomic/quantum processes are involved in holding a galaxy together, keeping planets orbiting stars, and preventing people from floating off into space. This book is dedicated to Occam's razor.

Weekly Options for Monthly Income Jon Schiller, Ph.d. 2015-10-06 Weekly Index Options became available on the Chicago Board of Options Exchange in 2003. I have watched this type of Options Trading evolve as more investors used weekly trading. The trading software I have developed adapted to the weeklies evolution. The software became simpler: It uses SPX for the weekly options My principle strategy for trading Weekly Index Options uses 2 sigma Condors: Short Calls 2 standard deviations above the market and the Long Calls the next strike price higher; Short Puts 2 standard deviations below the market and the Long Puts the next strike price lower. This is called 2 Sig Iron Condors. I have developed a tactic to make weekly profits in spite of the huge daily Up and Down movements in the SPX. SelfAdapSPXweeklyVLTy is the name of my software which I use to generate monthly income. The software described in this book uses only SPX for the options because I discovered that when I used other underlying stocks or indices such as Google and SPY, SPX usually finished best. This book describes how to use the TradeMonster real-time SPX quotes for computing the 2 sig Condors used in my Software: SelfAdapSPXweeklyVLTy. Trade Monster's affiliate OptionsHouse can be used for Weekly Options trading if you have a minimum of \$2,000 in the account. I use 1/4 of the capital = \$500 for Margin to generate about \$100 for the week or \$400 for the Month. In other words you get 90% return per month on \$500 margin. Remember the weekly in-out trades should be no more than 2 per week to avoid being designated a day trader by your broker which requires a minimum of \$25,000 in your account.

Mercury Living Presence LPs and CDs Kim Weston 2016-12-17 This book is primarily concerned with the classical music catalog of Mercury Living Presence recordings recorded and published by the Mercury Record Corporation. Mercury Records made some of the finest and most natural sounding audio recordings ever made, mostly of excellent and committed performances of classical music. But this is not a history of Mercury records or even of the Living Presence series of recordings. My main focus was to create a list of all the Mercury Living Presence classical records. I am mostly interested in the stereo recordings, but there are also many earlier mono recordings of great interest, too, so I have included those also. Specifically, what is included is information on the SR 90000 series of stereo recordings and the MG 50000 series of mono recordings, but there is also a listing of the Wing classical reissue series. *****

Decades ago, when I began collecting Mercury records, and years later when I started collecting the CDs, I was looking for a complete list of all the Mercury Living Presence records and later the CDs. Though I found some information that was helpful, to get what I wanted, I had to make the list myself. I started with lists of records on the record sleeves of the

albums, got some information from The Absolute Sound! magazine, and in the internet age, found useful information on several internet sites, but mostly to get the list I wanted, I had to dig up the information and build it myself. Having completed the list, it occurred to me that other collectors might find it helpful, too. So I put together a group of databases and spreadsheets in Microsoft Excel and Microsoft Works database format files and issued the databases I had created on a CD-rom disc in early 2013.

By that time I had all the original series of CDs mastered by Wilma Cozart Fine, and many of the records that had been reissued on CD, and virtually all of the stereo records not issued on CD, plus most of the mono records in which I had a strong interest. Now it is available as a book. Among

other things it includes the following lists: Complete Mercury Living Presence CDs, including every CD, with its track information, identifying Composer, title, soloist, conductor, orchestra, CD #, LP where originally published, and recording date. Complete Mercury Living Presence LPs including every LP with its track information identifying Composer, title, soloist, conductor, orchestra, LP #, CD on which it was reissued if any, and recording date. Different versions of the files are arranged by:

Composer and Title, Recording Date, Record number, and CD number.

There are also a listings of LPs and LP tracks that have not been reissued in the Mercury Living Presence CD series. Included are listings of all original Mercury Living Presence records in the SR 90000 and MG 50000 series, all CDs originally mastered by Wilma Cozart Fine, all SACDs, and the more recent reissues and new issues in the large 50+ CD box sets and the 10-CD box sets of Marcel Dupré and Janos Starker. There are also a few chapters of background information, little known facts, and other topics of interest. Hopefully readers will find it interesting and useful.

Young adults who are dedicated followers of Jesus Christ are learning to see media, Hollywood and even the world from a Christian perspective, while those who aren't necessarily connecting with a church are seeing Jesus in a fresh way. Based on this success, the authors decided to write on Season 2 of LOST, but with a twist: they involved 56 high school juniors and seniors
