A Comprehensive Guide to Addiction Theory and Counseling Techniques Alan A. Cavaola 2020-06-04 A blend of theory and counseling techniques, this comprehensive text provides readers with an overview of several major counseling theories and their application to substance use disorders and addiction counseling, along with related techniques and interventions. Chapters incorporate cutting edge evidenced-based research on neuroscience, psychological and sociocultural theories explaining the biopsychosocial influences of substance use disorders, and examine how substance use disorder risk factors can be utilized when assessing someone who may have a substance use disorder. The text additionally helps apply theory to practice, offering intervention techniques and using accessible case studies. Throughout the text, highlighted learning opportunities and key terms further help students to practice and apply the theories, interventions and techniques that the book discusses. Mental health professionals, undergraduate and graduate students alike will benefit from this deft mix of prominent theory, innovative research and accessible case studies.

The Corrupter of Boys Dyan Elliott 2020-11-27 In the fourth century, clerics began to distinguish themselves from members of the laity by virtue of their augmented claims to holiness. Because clerical celibacy was key to this distinction, religious authorities of all stripes—patristic authors, popes, theologians, canonists, monastic founders, and commentators—became progressively sensitive to sexual scandals that involved the clergy and developed sophisticated tactics for concealing or dispelling embarrassing lapses. According to Dyan Elliott, the fear of scandal dictated certain lines of action and inaction, the consequences of which are painfully apparent today. In *The Corrupter of Boys*, she demonstrates how, in conjunction with the requirement of clerical celibacy, scandal-averse policies at every conceivable level of the ecclesiastical hierarchy have enabled the widespread sexual abuse of boys and male adolescents within the Church. Elliott examines more than a millennium's worth of doctrine and practice to uncover the origins of a culture of secrecy and concealment of sin. She charts the continuities and changes, from late antiquity into the high Middle Ages, in the use of boys as sexual objects before focusing on four specific milieus in which boys and adolescents would have been especially at risk in the high and later Middle Ages: the monastery, the choir, the schools, and the episcopal court. *The Corrupter of Boys* is a work of stunning breadth and discomfiting resonance, as Elliott concludes that the same clerical prerogatives and privileges that were formulated in late antiquity and the medieval era—and the same strategies to cover up the abuses they enable—remain very much in place.

The Making of a Therapist Louis Cozolino 2004-07-17 Lessons from the personal experience and reflections of a therapist. The difficulty and cost of training psychotherapists properly is well known. It is far easier to provide a series of classes while ignoring the more challenging personal components of training. Despite the fact that the therapist's self-insight, emotional maturity, and calm centeredness are critical for successful psychotherapy, rote knowledge and technical skills are the focus of most training programs. As a result, the therapist's personal growth is either marginalized or ignored. The Making of a Therapist counters this trend by offering graduate students and beginning therapists a personal account of this important inner journey. Cozolino provides a unique look inside the mind and heart of an experienced therapist. Readers will find an exciting and privileged window into the experience of the therapist who, like themselves, is just starting out. In addition, The Making of a Therapist contains the practical advice, common-sense wisdom, and self-disclosure that practicing professionals have found to be the most helpful during their own training.The first part of the book, 'Getting Through Your First Sessions,' takes readers through the often-perilous days and weeks of conducting initial sessions with real clients. Cozolino addresses such basic concerns as: Do I need to be completely healthy myself before I can help others? What do I do if someone comes to me with an issue or problem I can't handle? What should I do if I have trouble listening to my clients? What if a client scares me?The second section of the book, 'Getting to Know Your Clients,' delves into the routine of therapy and the subsequent stages in which you continue to work with clients and help them. In this context, Cozolino presents the notion of the 'good enough' therapist, one who can surrender to his or her own imperfections while still guiding the therapeutic relationship to a positive outcome. The final section, 'Getting to Know Yourself,' goes to the core of the therapist's relation to him- or herself, addressing such issues as: How to turn your weaknesses into strengths, and how to deal with the complicated issues of pathological caretaking, countertransference, and self-care.Both an excellent introduction to the field as well as a valuable refresher for the experienced clinician, The Making of a Therapist offers readers the tools and insight that make the journey of becoming a therapist a rich and rewarding experience.

Tantra Illuminated Christopher D. Wallis 2013-08-15 This book takes readers on a fascinating journey to the very heart of Tantra: its key teachings, foundational lineages, and transformative practices. Since the West's discovery of Tantra 100 years ago, there has been considerable fascination, speculation, and more than a little misinformation about this spiritual movement. Now, for the first time in the English language, *Tantra Illuminated* presents an accessible introduction to this sacred tradition that began 1,500 years ago, in the far north of India. The book uses translations from primary Sanskrit sources, offers a profound look at spiritual practice, and reveals Tantra's rich history and powerful teachings.
