*The Earning Power of Railroads*, [1903] Floyd Woodruff Mundy 1944

*Fixed Income Investor* 1981

*Using Simulation to Solve Problems* Tom G. Poole 1977

*Nonlinearity, Bounded Rationality, and Heterogeneity* Tamotsu Onozaki 2018-01-28 This book pursues a nonlinear approach in considering both chaotic dynamical models and agent-based simulation models of economics, as well as their dynamical behaviors. Three key concepts arising in this context are “nonlinearity,” “bounded rationality” and “heterogeneity,” which also make up the title of the book. Nonlinearity is the warp that runs throughout all models because systems that exhibit chaotic or other complex behavior in the absence of any exogenous disturbances are absolutely nonlinear. Bounded rationality constitutes the woof, because economic systems do not exhibit complex behavior if all agents are perfectly rational, as is usually assumed in neoclassical economics. Agents who are boundedly rational have to struggle to do their best with limited information and tend to adapt to their economic environment without knowing what is the best. Furthermore, the heterogeneity of firms or consumers dyes the fabric of complex dynamics woven from the warp and woof.

**Verification of CSA Code for Fixed Offshore Steel Structures** Bill Maddock 1992 This project evaluated the Canadian Standards Association Code for the Design, Construction, and Installation of Fixed Offshore Structures in its application to the design of an actual steel jacket structure. The evaluation compared the results of a design based on the CSA standards to British Petroleum’s GYDA platform, applying the design criteria and environmental conditions used in the original design and focusing on the jacket structure and the pile foundations only.

*Fixing Inequality in Hong Kong* Yue Chim Richard Wong 2017-02-01 When discussing inequality and poverty in Hong Kong, scholars and politicians often focus on the failures of government policy and push for an increase in social welfare. Richard Wong argues in *Fixing Inequality in Hong Kong* that universal retirement support, minimum wage, and standard hours of work are of limited effect in shrinking the inequality gap. By comparing Hong Kong with Singapore, he points out that Hong Kong needs a new and long-term strategy on human resource policy. He recommends more investment in education, focusing on early education and immigration policy reforms to attract highly educated and skilled people to join the workforce. In analyzing what causes inequality, this book ties disparate issues together into a coherent framework, such as Hong Kong’s aging population, lack of investment in human capital, and family breakdowns. Rising divorce rates among low-income households have worsened the housing shortage, driving rents and property prices upwards. Housing problems have created a bigger gap between those who own housing and have the ability to invest in their children’s human capital and those who cannot, thus adversely impacting intergenerational upward mobility. This is the third of Richard Wong’s collections of articles on society and economy in Hong Kong. Diversity and Occasional Anarchy and Hong Kong Land for Hong Kong People, published by Hong Kong University Press in 2013 and 2015 respectively, discuss growing economic and social contradictions in Hong Kong and current housing problems and their solutions.

**Moody’s Bond Record** 1993-05

*The Public General Acts ... and the Church Assembly Measures* Great Britain 1936

**Business Conditions Digest**

*Year Book .... and Proceedings of the .... International Cost Conference* National Association of Cost Accountants (U.S.) 1926

**Development and Employment of Fixed-wing Gunships, 1962-1972** Jack S. Ballard 1982

**Sams Teach Yourself Upgrading and Fixing PCs in 24 Hours** Galen Grimes 2000 Consumers with questions about upgrading their PCs get them answered in this practical, easy-to-understand guide—updated to cover the latest operating systems, partitioning software and DVD drives. The book has also been reorganized to make it more accessible to beginners, and a detailed Glossary and manufacturers’ reference have been added.

The **'86 Fix** Keith Pearson 2017-02-09 Imagine if you could travel back in time and relive one weekend as your sixteen year-old self - would you change anything? Everything wrong with Craig Pelling's life can be traced back to 1986 and the moment he popped in to a newsagent for a can of Coke. Now in his mid-forties, all he has to look back on is twenty-five years of marriage to a woman he doesn't love and an unfulfilled career selling electrical goods. He could have been so much more, achieved so much more. But as bitter as Craig feels about his mundane existence, fate hasn't finished with him yet. A series of unfortunate events pushes the hapless Craig to breaking point as his life crumbles around him. All looks lost until he's thrown a lifeline - the miraculous lifeline of a brief trip back to 1986, to relive one weekend as his sixteen year-old self. Will he be able to change his future for the better? Is it as simple as just reverting one decision he made over thirty years ago? Craig is about to find out.

*Manual of Classification* United States. Patent Office 1920 Includes list of replacement pages.

**Gorilla Pathology and Health** John E Cooper 2017-04-13 Gorilla Pathology and Health: With a Catalogue of Preserved Materials consists of two cross-referenced parts. The first, the book itself, is a review of pathological changes and tissue responses in gorillas (Gorilla gorilla and G. beringei), with an emphasis on free-living animals, but also with reference to those in captivity. The comparative aspects are discussed, stressing the relevance of research to both gorillas and humans. What makes the publication truly unique, however, is the second part, a comprehensive descriptive catalogue of the location and nature of gorilla material in museums and scientific institutions throughout the world. This is of great consequence because free-living gorillas are strictly conserved with restricted access, so the location of a wealth of preserved tissues and other material that has been collected over the decades is a great benefit for research and study. This book can, and should, be used to gain cardinal knowledge regarding the biology and pathology of this genus. The combination of book and catalogue in this extensive compilation makes it an invaluable tool for all those concerned with the health, welfare, and conservation of gorillas, one of our nearest living relatives. Brings together studies, data, and clinical practice from difficult-to-access or obscure journals and NGO reports, in different languages, for all interested parties and practitioners Provides perspectives on existing research in gorilla pathology, both for those studying conservation practices and those seeking an understanding of comparable diseases in humans Includes illustrative figures on gross and microscopic pathological changes, museum specimens, photos of field necropsy and techniques, and examples of laboratory tests Features an extensive list of references and further reading, in different languages Incorporates a comprehensive, descriptive catalogue of gorilla material from around the world

**Monthly Labor Review** United States. Bureau of Labor Statistics 1988 Publishes in-depth articles on labor subjects, current labor statistics, information about current labor contracts, and book reviews.

*Statistical Yearbook of Bangladesh* 1986

**Variations in Isotopic Abundances of Strontium, Calcium, and Argon and Related Topics** 1963

**Fixed Income Masterpieces** Livingston G. Douglas 1993 "Over the short period of the last three years, fixed income investments in institutional portfolios have increased approximately \$500 billion. Despite this enormous and rapid growth, bond traders, portfolio managers, investors, and others often make investment decisions without considering the basic principles that fueled this growth." "Based on his extensive experience in the field, Livingston Douglas gives you the most important and influential contributions by such legends as Henry Kaufman, Martin Leibowitz, and Sidney Homer. The first collection of classics for the bond market, Fixed Income Masterpieces gives you dozens of hard-to-find masterpieces, some written almost 100 years ago, organized into one easy-to-reference source; an historical perspective of the development of fixed income markets so you can make better investment decisions today; and complete coverage of the mechanics of the market, including historical data, mathematics, portfolio management, and indexes, so you have key facts right at your fingertips." "The only resource to give you complete coverage of the development of the bond market, investments, and financial strategies, Fixed Income Masterpieces is an essential addition to the libraries of every player in the bond investing arena, as well as those developing money management operations around the world. Livingston Douglas has done the monumental task of gathering and organizing these timeless writings so you can start benefiting today from the experience of other successful investment professionals."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. *Interpreting Imperatives* Magdalena Kaufmann 2011-10-26 Imperative clauses are recognized as one of the major clause types alongside those known as declarative and interrogative. Nevertheless, they are still an enigma in the study of meaning, which relies largely on either the concept of truth conditions or the concept of information growth—neither of which are easily applied to imperatives. This book puts forward a fresh perspective. It analyzes imperatives in terms of modalized propositions, and identifies an additional, presuppositional, meaning component that makes an assertive interpretation inappropriate. The author shows how these two elements can help explain the varied effects imperatives have, depending on their usage context. Imperatives have been viewed as elusive components of language because they have a range of functions that makes them difficult to unify theoretically. This fresh view of the semantics-pragmatics interface allows for a uniform semantic analysis while accounting for the pragmatic versatility of imperatives.
